

TITLE INDEX 2003

2003 and all that jazz.

John S. Gould, MD. 32:10, January.

A 7-week-old female infant with a left thigh swelling. Harvey E. L. Teo, MBBS, FRCR, and Wilfred C. G. Peh, MD, FRCP, FRCR. 32:513, October

A 7-year-old boy with left sternoclavicular swelling. Lisa L. S. Wong, MBBS, FRCR, and Wilfred C.G. Peh, MD, FRCP, FRCR. 32:49, January

Administering caudal anesthesia at completion of clubfoot surgery does not affect postoperative use of narcotics. Molly D. Black, MD, Brad Olney, MD, Coley Vitztum, RN, CNS, and Khatab Hassanein, PhD. 32:130, March

Adult degenerative lumbar scoliosis. Scott D. Daffner, MD, and Alexander R. Vaccaro, MD. 32:77, February

Adult degenerative lumbar scoliosis. Commentary. Gregory P. Graziano, MD. 32:82, February.

Analysis of rotator cuff muscles in adult human cadaveric specimens. Frank V. Aluisio, MD, Daryl C. Osbahr, BS, and Kevin P. Speer, MD. 32:124, March.

Aneurysmal bone cyst in the hamate. Yavuz Kabukcuoglu, MD, Fevziye Kabukcuoglu, MD, Metin Kucukkaya, MD, and Unal Kuzgun, MD. 32:101, February

Are 2 cages needed for instrumented PLIF? A comparison of 1 versus 2 interbody cages in a military population. MAJ Robert W. Molinari, MD, MAJ John Sloboda, MD, and COL Frederic L. Johnstone, MD. 32:337, July

Are 2 cages needed for instrumented PLIF? A comparison of 1 versus 2 interbody cages in a military population. Commentary. Howard S. An, MD. 32:343, July

Aspergillus infection after total knee arthroplasty. Philip Langer, MD, Rida A. Kassim, MD, George S.

Macari, MD, and Khaled J. Saleh, MD, FRCSC. 32:402, August

Avoiding complications. Peter D. McCann, MD. 32:374, August

Avulsion fractures of the medial and lateral malleoli of the ankle in cadavers: new radiographic projections for improved diagnosis. C. Luen Fai Chau, MD, S. J. Theodorou, MD, D. J. Theodorou, MD, Seung Ming Ng, MD, R. Pedowitz, MD, D. Trudell, and D. Resnick, MD. 32:545, November

Bicycling-induced ulnar tunnel syndrome. David M. Kalainov, MD, and Brian J. Hartigan, MD. 32:210, April

Bilateral carpometacarpal dislocations of the thumb. Amir M. Khan, MD, Michael G. Ryan, MD, and Glenn A. Teplitz, MD. 32:38, January

Bilateral knee and bilateral elbow osteochondritis dissecans. Christopher A. Arnold, MD, Derek J. Thomas, MD, and James O. Sanders, MD. 32:237, May

Bilateral Monteggia fractures. Peter Kloen, MD, PhD, Iván F. Rubel, MD, Timothy D. Farley, MD, Andrew J. Weiland, MD, and David L. Helfet, MD. 32:98, February.

Biomechanical effects of processing bulk allograft bone with negative-pressure washing. Mark J. Tenholder, MD, Jeffrey S. Kneisl, MD, Matthew E. Harrow, MSc, Richard D. Peindl, PhD, and Kevin J. Stanley, MD. 32:289, June

Bone ingrowth into absorbable bone cement—an in vivo microscopic evaluation. Scott Herron, MD, David B. Thordarson, MD, Howard Winet, PhD, Anna Luk, MS, and J. Y. Bao, MD. 32:581, December

Brachial artery rupture without median nerve dysfunction after closed elbow dislocation. Natalie A. Squires, MD, and Matthew M. Tomaino, MD. 32:298, June

Brachial plexus injury by nonviolent means in an adolescent baton twirler. Kelly D. Carmichael, MD. 32:306, June

Cement pressurization after provisional repair of femoral cortical defects. David C. Markel, MD, Jeff Critchfield, MD, Abby Chaffin, MD, Paul H. Wooley, PhD, and Michele J. Grimm, PhD. 32:229, May

Chronic plantar fasciitis. John S. Gould, MD. 32:11, January

Classification of intertrochanteric fractures with computed tomography: a study of intraobserver and interobserver variability and prognostic value.

Cary B. Chapman, MD, Mauricio F. Herrera, MD, Gil Binenbaum, BS, Michael Schweppe, MD, Frieda Feldman, MD, Ronald B. Staron, MD, and Melvin P. Rosenwasser, MD. 32:443, September

Clinical applications of growth factors for articular cartilage repair. Derrick G. Hickey, MD, Sally R. Frenkel, PhD, and Paul E. Di Cesare, MD. 32:70, February

A cohort study of systemic and local complications of toe prostheses. Gail Husson, MPH, MEd, Lisa J. Herrinton, PhD, W. Timothy Brox, MD, William Finkle, PhD, Allan Bernstein, MD, Stanford Shoor, MD, and Sander Greenland, MS, DrPH. 32:585, December

Combined physeal/apophyseal fracture of the proximal tibia with anterior angulation from an indirect force: report of 2 cases. Joseph P. Donahue, MD, John F. Brennan, MD, and O. Alton Barron, MD. 32:604, December

Compartment syndrome following acute rupture of the peroneus longus in a high school football player: a case report. Stephen Mendelson, MD, Alice Mendelson, MD, and James Holmes, MD. 32:510, October

Compliance in using a pneumatic compression device after total knee arthroplasty. Geoffrey H. Westrich, MD, Peter H. Jhon, BS, and Pamela M. Sánchez, BS. 32:135, March

Coronoid fractures: operative treatment using an anteromedial approach. John Gray Seiler, III, MD, and John F. Dalton, IV, MD. 32:325, July

Cost analysis: fondaparinux versus preoperative and postoperative enoxaparin as venous thromboembolic event prophylaxis in elective hip arthroplasty. William E. Wade, PharmD, FASHP, FCCP, William J. Spruill, PharmD, FASHP, and Ryan B. Leslie, PharmD. 32:201, April

Delayed-onset *Mycobacterium tuberculosis* infection with staphylococcal superinfection after total knee replacement. Raad Al-Shaikh, MD, and Stuart B. Goodman, MD, PhD. 32:302, June

Design concepts and early utilization of a new femoral interlocking nail. Robert J. Brumback, MD. 32 (suppl 9S):5, September

Distal humeral epiphyseal separation. Calin S. Moucha, MD, and Dan E. Mason, MD. 32:497, October

Distal radioulnar allograft reconstruction after giant cell tumor resection. Raymond K. Wurapa, MD, and Richard Whipple, MD. 32:397, August

Duplex ultrasonography in patients suspected of postoperative pulmonary embolism following total joint arthroplasty. Craig J. Della Valle, MD, David J. Steiger, MD, and Paul E. DiCesare, MD. 32:386, August

Dynamic hip screw removal using a blade plate extraction device. Wesley P. Phipatanakul, MD, and J. Tracy Watson, MD. 32:362, July

Efficacy of telemedicine in the initial management of orthopedic trauma. Kenneth A. Egol, MD, David L. Helfet, MD, and Kenneth J. Koval, MD. 32:356, July

Evaluation of osteoporosis in orthopedic practice: a review of current diagnostic modalities. Stavroula J. Theodorou, MD, Daphne J. Theodorou, MD, and David J. Sartoris, MD. 32:178, April

Evaluation of registration methods used in frameless stereotactic surgery for the lumbar and cervical regions of the spine. Jacob M. Buchowski, MD, MS, Patrick A. Helm, MS, Cameron B. Huckell, MD, Lee H. Riley, III, MD, David B. Cohen, MD, Nicholas U. Ahn, MD, Uri M. Ahn, MD, Gbolahan O. Okubadejo, MD, S. James Zinreich, MD, and John P. Kostuik, MD. 32:90, February

Evaluation of registration methods used in frameless stereotactic surgery for the lumbar and cervical regions of the spine. Commentary. Jean-Pierre C. Farcy, MD, FACS. 32:97, February

Extensive lipoma causing suprascapular nerve entrapment. John E. Zvijac, MD, Daniel A. Sheldon, MD, and Matthias R. Schürhoff, MD. 32:141, March

Freeing the arthroscope of particulate debris. Vincent D. Waldron, MD, FACS. 32:568, November

Health-related quality of life in patients with Charcot foot. Michael S. Pinzur, MD, and Andrew Evans, MD. 32:492, October

Hip pain in a case of hypophosphatemic osteomalacia. Justin Esterberg, MD, Rida A. Kassim, MD, John Redmon, MD, James Coad, MD, George S. Macari, MD, and Khaled J. Saleh, MSc, MD, FRCSC. 32:455, September

Humeral pseudocyst. Wilfred C. G. Peh, MD, FRCP, FRCR. 32:569, November

Hyphenated history: Park-Harris growth arrest lines. Tracy M. Lee, DO, ATC, and Charles T. Mehlman, DO, MPH. 32:408, August

The inferior arc injury: an addition to the family of complex carpal fracture-dislocation patterns. Thomas J. Graham, MD. 32 (suppl 9S):10, September

Ingrowth of bone into absorbable bone cement: an in vivo microscopic evaluation. Scott Herron, MD, David B. Thordarson, MD, Howard Winet, PhD, Anna Luk, MS, and J. Y. Bao, MD. 32:581, December

In-hospital mortality after femoral neck fracture: do internal fixation and hemiarthroplasty differ? Hsiu Su, BS, Gina B. Aharonoff, MPH, Rudi Hiebert, BS, Joseph D. Zuckerman, MD, and Kenneth J. Koval, MD. 32:151, March.

Injuries associated with fracture of the femur secondary to motor vehicle accidents in children. Ayman H. Jawadi, MD, and Mervyn Letts, MD, FRCSC. 32:459, September

Injuries associated with fracture of the femur secondary to motor vehicle accidents in children. Commentary. Richard J. Aadalén, MD. 32:462, September

Injury to the developing sternum in an adolescent football player: a case report and literature review. Christopher M. Larson, MD, and David A. Fischer, MD. 32:559, November

Instability following total hip arthroplasty. Hargovind DeWal, MD, Edward Su, MD, and Paul E. DiCesare, MD. 32:377, August

Intramedullary fixation of diaphyseal femoral fractures in elderly patients: analysis of outcomes and complications. Matison L. Boyer, MD, George J. Haidukewych, MD, and Michael E. Torchia, MD. 32:42, January

Intramedullary transmetatarsal Kirschner wire fixation of Lisfranc fracture-dislocations. Brett D. Owens, MD, John J. Wixted, MD, Jeffrey Cook, BS, and Anthony K. Teebagy, MD. 32:389, August

Intraosseous metacarpal involvement of giant cell tumor of the tendon sheath. Marc H. Fogelson, MD, Khiem D. Dao, MD, and Alexander Y. Shin, MD. 32:32, January

Is smaller necessarily better? Thomas P. Sculco, MD. 32:169, April

L5 root compression resulting from an L2-L3 disc herniation. Angel M. Hidalgo-Ovejero, MD, Serafin García-Mata, MD, Juan José Sanchez-Villares, MD, Pedro Lasanta, MD, Tomás Izco-Cabezón, MD, and Manuel Martínez-Grande, MD. 32:392, August

Lateral elbow ecchymosis as a clinical sign of lateral humeral condylar fractures. Nicholas J. Meyer, MD, and Roger M. Lyon, MD. 32:260, May

Lateral subtalar dislocation in a 19-month-old female. Christopher P. Dougherty, DO, Robert W. Nebergall, DO, and Paul M. Caskey, MD. 32:598, December

Luxatio erecta (inferior dislocation of the shoulder): a report of 5 cases and review of the literature. Tetsuji Yamamoto, MD, Shinichi Yoshiya, MD, Masahiro Kurosaka, MD, Keiko Nagira, MD, and Yuji Nabeshima, MD. 32:601, December

Magnetic resonance imaging in diagnosis of chronic posterolateral rotatory instability of the elbow. Michael W. Grafe, MD, Timothy R. McAdams, MD, Christopher F. Beaulieu, MD, PhD, and Amy L. Ladd, MD. 32:501, October

Magnetic resonance imaging in diagnosis of chronic posterolateral rotatory instability of the elbow. Commentary. Martin L. Schwartz, MD. 32:504, October

Man is wolf. John S. Gould, MD. 32:273, June

The management of anterior dislocation of the shoulder with proximal humerus fracture, bony Bankart lesion, and associate glenoid labrum avulsion. Amit Lahav, MD, Richard Rogachefsky, MD, Baruch Toledano, MD, and Bruce P. Meinhard, MD. 32:349, July

Management of peroneal nerve injuries associated with knee dislocations. Robert J. Goitz, MD, and Matthew M. Tomaino, MD. 32:14, January

Mechanical therapy for loss of knee flexion. Thomas P. Branch, MD, Robert E. Karsch, MD, Timothy J. Mills, RN, BSN, and Marissa T. Palmer, BS. 32:195, April

Men and women at war. John S. Gould, MD. 32:221, May

Migration of a Steinmann pin from the proximal humerus to juxtapose the axillary artery. Robin Vereeke West, MD, Anand Murthi, MD, and Stephen Gunther, MD. 32:242, May

Nonunion of femoral neck fracture and trochanteric osteotomy after a pinned, slipped capital femoral epiphysis: a case report. Kyle F. Dickson, MD, James T. Bennett, MD, Frederic H. Warren, MD, Jeff W. Mast, MD, Keith A. Mayo, MD, and James Darling, MD. 32:551, November

Orthopedic trauma: is it a subspecialty?

David L. Helfet, MD. 32:425,

September

Orthopedic trauma surgeon: distinction or**extinction?** Robert F. Ostrum, MD. 32 (suppl 9S):3,

September

Osteofibrous dysplasia—a review of the literature**and presentation of an additional 3 cases.** Michael McCaffrey, MD, Merv Letts, MD, FRCSC, Blair

Carpenter, MD, FRCPC, Atif Kabir, MD,

Darin Davidson, MD, and Jeff Seip, MD. 32:479,

October

Osteoid osteoma of the glenoid: minimally invasive**treatment.** Brett Wasserlauf, MD, James Gossett,

ATC, Daniel I. Rosenthal, MD, and William N.

Levine, MD. 32:405, August

Osteopetrosis. Mininder S. Kocher, MD, MPH, and

James R. Kasser, MD. 32:222, May

Our heroes. A. Herbert Alexander, MD. 32:322,

July

Pain levels after injection of corticosteroid to hand**and elbow.** Angela A. Wang, MD, Erin Whitaker, BS,

Douglas T. Hutchinson, MD, and Don A. Coleman,

MD. 32:383, August

Patellar retinacular peel: an alternative to lateral**retinacular release in total knee arthroplasty.**

James A. Shaw, MD. 32:189,

April

Percutaneous toggle technique for manipulating**displaced, unstable, and nonreducible proximal****tibial fractures in children.** Stephan G. Pill, PT, MS,

William Hamilton, MD, and John P. Dormans, MD.

32:156, March.

Peripheral and central nervous system mecha-**nisms of joint protection.**

Brian L. O'Connor, PhD, and Joel A. Vilensky, PhD.

32:330, July

Periprosthetic femur fractures—a growing**epidemic.** Walter Abendschein, MD. 32 (suppl

9S):34, September

Physical and monetary costs associated with auto-**genous bone graft harvesting.** Thomas A. St. John,

MD, Alexander R. Vaccaro, MD, Alexander P. Sah,

MD, Marcia Schaefer, MA, Scott C. Berta, MD, Todd

Albert, MD, and Alan Hilibrand, MD. 32:18,

January

Plantar ganglion cyst associated with stress frac-**ture of the third metatarsal.** 32:35, January. David

R. McAllister, MD, Jason Koh, MD, and John A.

Bergfeld, MD

Posterior lateral corner reconstruction. William G.

Clancy, Jr., MD, Michael F. Shepard, MD, and

E. Lyle Cain, Jr., MD. 32: 171,

April

Postfracture extensor pollicis longus tenosynovitis**and tendon rupture: a scientific study and****personal series.** Hillel D. Skoff, MD. 32:245, May**Premature failure of a hip hemiarthroplasty****secondary to osteolysis and aseptic loosening.**

Marco Rizzo, MD, and Thomas B. Pace, MD. 32:206,

April

Primary bacterial pyomyositis associated with**septic arthritis caused by *Streptococcus pyogenes*.**

Nathan Lawrentschuk, MBBS, Michael P. Falken-

berg, MBBS, FRACS, and Marinis Pirpiris, MBBS.

32:148, March.

Pyomyositis in a 69-year-old tennis player.

Bradd G. Burkhart, MD, and Karl R. Hamson, MD.

32:562, November

Radial artery injury from a catfish sting. Randolph

J. Ferlic, MD, Ekkehard Bonatz, MD, and Michelle L.

Robbin, MD. 32:412, August

Radiofrequency energy: applications and basic**science.** Brett D. Owens, MD, Beverly J. Stickle,

MD, and Brian D. Busconi, MD. 32:117, March.

Radiofrequency energy: applications and basic sci-**ence. Commentary.** Robert S. Wolf, MD. 32:120, March**Recent advances toward the clinical application of****bone morphogenetic proteins in bone and cartilage****repair.** Paul S. Issack, MD, PhD, and Paul E.

DiCesare, MD. 32:429, September

Rehabilitation of the arthrofibrotic knee. Peter J.

Millett, MD, MSc, Burt Johnson, ATC, Jeff Carlson,

PT, Sumant Krishnan, MD, and J. Richard Steadman,

MD. 32:531, November

Relationship of a low-lying muscle belly to tears of**the peroneus brevis tendon.** Jeffrey Geller, MD,

Sheldon Lin, MD, Daniel Cordas, MD, and Pedro

Vieira, MD. 32:541, November

The risks of overly effective postoperative epidural**analgesia.** Priyan R. Landham, BSc, MBBS,

J. Winslow Alford, MD, and Michael G. Ehrlich, MD.

32:353, July

Safety of intra-articular hyaluronates for pain**associated with osteoarthritis of the knee.** J. F. Rick

Hammesfahr, MD, Alan B. Knopf, MD, and Todd

Stitik, MD. 32:277, June

Separation anxiety. John S. Gould, MD. 32:67,

February

Shoulder pain and the overhand athlete. Charles

Ruotolo, MD, James Penna, MD, Suk Namkoong,

MD, and Bruce P. Meinhard, MD. 32:248, May

Solitary bilateral palmar masses as initial**presentation of sarcoidosis.** David V. Lopez, MD,

Ramin Ghobadi, MD, and Ferydoon Ghobadi, MD.

32:144, March

The Ten Commandments. John S. Gould, MD. 36:578, December

Thoracic spinal injuries: operative treatments and neurologic outcomes. George S. Sapkas, MD, Panayiotis J. Papagelopoulos, MD, Stamatios A. Papadakis, MD, DSc, George S. Themistocleous, MD, Dimitrios P. Stathakopoulos, MD, Panos Efstathiou, MD, Despoina Sapoutzi-Krepia, PhD, and Athanasios Ch. Badekas, MD. 32:85, February

Torticollis in an infant caused by hereditary muscle aplasia. Samuel B. Adams, Jr., BS, John M. Flynn, MD, Harish Hosalkar, MD, Jill Hunter, MD, and Richard Finkel, MD. 32:556, November

Total elbow replacement for distal humerus fractures and traumatic deformity: results and complications of semiconstrained implants and design rationale for the Discovery™ Elbow System. Hill Hastings II, MD, and Chee S. Theng, BEng. 32 (suppl 9S):20, September

Total knee arthroplasty in a patient with quadriiceps paralysis secondary to poliomyelitis. Gregory T. Evangelista, MD, and Joseph D. Zuckerman, MD. 32:593, December

Traction versus side-bending radiographs: is the proximal thoracic curve the stiffer curve in double thoracic curves? Kevin L. Kirk, DO, Timothy R. Kuklo, MD, and David W. Polly, Jr., MD. 32:284, June

Transforaminal lumbar interbody fusion: unilateral versus bilateral disk removal: an in vivo study. CPT Matthew A. Javernick, MD, LTC Timothy R. Kuklo, MD, JD, and COL David W. Polly, Jr., MD. 32:344, July

Transforaminal lumbar interbody fusion: unilateral versus bilateral disk removal: an in vivo study. Commentary. Jean-Pierre C. Farcy, MD. 32:348, July

Treatment of multifocal vancomycin-resistant *Enterococcus faecium* osteomyelitis in sickle cell disease: a preliminary report. Christopher Bibbo, DO, Dipak V. Patel, MD, William A. Tyndall, MD, Michael S. Sirkin, MD, and Victor Chang, MD. 32:501, October

Treatment of subtrochanteric femur fractures using a submuscular fixed low-angle plate. Christopher Neher, MD, and Robert F. Ostrum, MD. 32 (suppl 9S):29, September

Treatment of supracondylar femur nonunions with open reduction and internal fixation. George J. Haidukewych, MD, Daniel J. Berry, MD, David J. Jacofsky, MD, and Michael E. Torchia, MD. 32:564, November

Treatment of type III tibial intercondylar eminence fractures in skeletally immature athletes. Brett D. Owens, MD, Gilbert K. Crane, MD, Troilus Plante, BS, and Brian D. Busconi, MD. 32:103, February

Triplane fracture of the proximal tibia. Anastasios D. Kanellopoulos, MD, Christos K. Yiannakopoulos, MD, and Leonidas S. Badras, MD. 32:452, September

Two or three screws for fixation of femoral neck fractures? Stephen G. Maurer, MD, Kevin E. Wright, MD, Frederick J. Kummer, PhD, Joseph D. Zuckerman, MD, and Kenneth J. Koval, MD. 32:438, September

Use of the AO femoral distractor in revision total hip arthroplasty. Jon E. Minter, DO, Thomas L. Bernasek, MD, Michael R. Malone, DO, and Philip Schmitt, DO. 32:464, September

Use of a vertical transarticular pin for stabilization of severe ankle fractures. Thomas N. Scioscia, MD, and Bruce H. Ziran, MD. 32:46, January

Varus collapse of comminuted distal femur fractures after open reduction and internal fixation with a lateral condylar buttress plate. Brian L. Davison, MD. 32:27, January

Vascular injuries in total hip replacement arthroplasty: a review of the problem. Dinesh K. Sharma, MS, FRCS, Naresh Kumar, MS, FRCS (Ortho), V. Mishra, FRCS, and F. R. Howell, FRCS (Orth). 32:487, October

What it's like to be a Red Sox fan. John S. Gould, MD. 32:528, November

Winning one for the gipper. John S. Gould, MD. 32:476, October

Wrong site surgery. John S. Gould, MD. 32:116, March
